(Editor's Note: Ord. 2004-321 was passed and approved by Commission in 2004. However Ord. 2004-321 which created Article VIII. Ord. 2004-321 has now been incorporated into this Article as of 13 May 2009.)

Sec 12-250. Scope and Title.

Excessive sound is a serious hazard to the public health, welfare, safety, and the quality of life; and, a substantial body of science and technology exists by which excessive sound may be substantially abated; and, the people have a right to, and should be ensured of, an environment free from excessive sound.

It shall be the policy of the City of Aztec, New Mexico to prevent excessive sound that may jeopardize the health, welfare, or safety of the citizens or degrade the quality of life.

Sec. 12-251. Nuisance Noise.

Nuisance noise complaints as addressed in Section 12-125. Unreasonable Noise are flexible in that they may be enforced or cited solely upon a City official, code or animal enforcement officer or police officers' statement that in his/her opinion the alleged violation was creating an unreasonable nuisance or disturbing the peace. Unreasonable Nuisance Noise complaints shall not require a specific or objective measurement (i.e. decibel meter reading).

Sec. 12-252. Noise Control (Performance) Regulations.

1. The Noise Control (Performance) Regulation is a performance based code designed to empower the City and its qualified personnel to respond to noise complaints with specific and measurable sound levels as measured by a regularly calibrated sound level meter in decibels.
2. The response time for the investigation of noise complaints will be influenced by time, distance, case loads and other factors. If the sound source generating the complaint is transient or irregular, this may result in an inability to complete a satisfactory investigation or the necessity for multiple visits over a period of time to document a violation.
3. Public nuisance; abatement; additional remedies.

The operation or maintenance of any device, instrument, vehicle or machinery, in violation of this article, which causes an immediate threat to the health and welfare of persons within the City shall be deemed and is declared to be a public nuisance and may be subject to summary abatement by a restraining order or injunction issued by a court of competent jurisdiction. This is not intended to preclude any other legal remedy that may be had according to law.

4. Evidence of violation.

Excluding violations deemed unreasonable or nuisance noise violations, evidence establishing that an activity is causing or has caused the permissible sound level to be exceeded by more than five decibels at a point designated in any section of this article shall be deemed to be a prima facie evidence of a violation of this article. Sound level measurements taken in order to show such prima facie violation must conform to the procedures as outlined in this section.

5. Procedures for measurements.

Unless otherwise provided in this article, sound level measurements shall be taken with a sound level meter whose microphone is located at any point on the real property boundary or other point as provided in this article, no closer than five feet from any wall or vertical obstruction when possible, and where practicable not less than five feet above ground level, but in no event less than three feet above ground. A minimum of three readings shall be taken at two-minute intervals. The sound level shall be the average of these readings.

This article shall not apply to the emission of sound for the purpose of alerting persons to the existence of an emergency or the emission of sound in the performance of verifiable emergency work.

7. Variances.

- b. The offending noise will be for a short duration and compliance with this article will be impractical;
- c. The benefit to the community of the activity creating the offending noise is greater than the adverse effect on the community of the noise created; or
- d. The applicant needs additional time to modify equipment or take other action in order to comply with this article.

(2) Notice of an application for a variance granted under this section shall be published in the same manner as provided for notice of ordinances and shall be granted only after the matter is considered in a hearing at a regularly scheduled commission meeting.

- a. The City Manager may grant a temporary permit to an applicant for a variance to exceed levels established in this article until action is taken by the City Commission on the application for a variance.

(3) Special variances shall be granted by notice to the applicant containing all necessary conditions, including a time limit on the permitted activity. The special variance shall not become effective until all conditions are agreed to by the applicant. Noncompliance with

any condition of a special variance shall terminate it and subject the person holding it to those sections of this article regulating the source of sound or activity for which the special variance was granted. Application for an extension of the time limits specified in special variances or for modification of other substantial conditions shall be treated as are applications for initial variances.

8. Maximum permissible sound levels by receiving land use.
