A. Discussion for School Resource Officer and Zia Street Closure

Mayor Snover opened the workshop and recused himself because he is a school employee.

School Superintendent presented several ideas for the closing of Zia Street. He explained that they do not wish to put anyone in jeopardy but they do want to make sure that the students are safe. They would like to add gates and security sheds. The schools have applied for a grant to remove 3 bridges, they are just trying to close up holes. Metal detectors would be hard because there is more than 1 building with a main entrance. Trying to secure schools from the outside in.

Steven Saavedra mentioned that he did receive some complaints from neighbors on Zia. Steve Mueller mentioned that staff has concerns with safety, flooding, connectivity for residents. ADA is another issue with people parking on the sidewalks now what about when there is more traffic in that area. Staff feels it is unsafe and problematic to close Zia for multiple reasons.

For the School Resource Officer we financially do not have. We can use officers that want overtime. Currently 3 security offers will be at the school.
