

## **Aztec Municipal Airport 10,000 Gallon Fuel Tank**

The City has been working on replacing the old fuel tank at the Aztec Municipal Airport. Installation of a new tank which accepts credit card payments will occur in the month of March. Funded by New Mexico Department of Transportation Aviation Division and City funds, estimated total cost \$210,000.

Bid awarded in October 2015 to Eaton Sales. After some trials and successes with the automation programming, the tank is finally operational. The tank is operational, project has been completed.
