SAMPLE INTAKE FORM

Sampling and Assessing Flooding Emergencies (SAFE)
Private Well Water Testing Event

Directions: Please complete to the best of your ability. Use Yes / No / Unknown where applicable.		
Section 1: Well Owner Information		
Well owner / resident name:		Date:
Phone number:	E-mail:	
Cell phone number for text messages:	Would you like bacterial testing results by text or telephone? Would you like complete results by e-mail or text?	
Physical address / well location:	Mailing address (if different):	
Is this well shared with other households? If yes, how many?	State Engineer Well ID / Permit (if available):	
Section 2: Sample Information		
Collection date:	Collection time:	
Where was the sample collected (outdoors, kitchen sink)? Distance from your well (ft):	Collection point GPS coordinates (if available):	
Is the collection point before or after treatment? (list "N/A" if no treatment)	Was the well disinfected following the flooding? If so, on what date and how?	
Did floodwater reach or cover the wellhead? For how long?	Have you noticed new cloudiness, discoloration, sediment, or unusual odor?	
Section 3: Well Characteristics		
Well use:	Well depth (ft):	Depth to water (ft):
Nearest septic tank / drainfield or sewer (ft):	Number of groundwater wells on property (use one kit per well):	
Does the well has any of the following features? If so, please describe: Pump, Electricity, Pressure Tank, Treatment System (please specify), Softener, Other:		
Has this well been tested before? If so, which analytes (for example nitrates or metals) and when? Please share any notable results.		

Section 4: Sampling Information **(Do not complete, to be filled by staff)**
Sample ID:
pH:
Temperature (C):
Conductivity (us/cm):
Total Dissolved Solids (ppm):
Turbidity (NTU):
Notes:

Eastern Research Group, Inc. (ERG) is contracted with the New Mexico Environment Department (NMED) to support private well sampling for flood impacted residents. This voluntary program will be conducted at no cost to you, and the results will also be provided to you for free.

While the results of the sampling may be anonymized and shared, your personal information (name, address, contact information) will not be shared with anyone outside of NMED; other state agencies and their contractors, including but not limited to the New Mexico Department of Home Security and Emergency Management (DHSEM) and the New Mexico Department of Health (NMDOH); and ERG unless we obtain your permission to do so.

Centers for Disease Control & Prevention (CDC):
How to Disinfect Water Wells After An Emergency:

If you have questions about NMED's free flood well testing, please call the **Flood Well Test Hotline** at **505-628-7130**
or email **FloodWellTest@erg.com**.
